Laboratory Manager
ORELAP ID #4046
ASSET Laboratories
3151 W. Post Road
Las Vegas, NV 89118

Dear Laboratory Manager,

We are pleased to inform you that your laboratory has been granted accreditation by ORELAP in accordance with NELAP Standards. The ORELAP Certificate of Accreditation is enclosed.

It is important to note that, in order to maintain accreditation, the laboratory must grant ORELAP personnel access to the facility during any regular scheduled work hour.

Use and display of the Certificate of Accreditation

You must post the most recent Certificate of Accreditation in a prominent place in the laboratory facility.

You must make accurate statements concerning the parameters for which you are accredited.

- You may not use the ORELAP Certificate, NELAP accreditation status or NELAP logo to imply endorsement by ORELAP.
- Any use of ORELAP's or NELAP's name on general literature such as catalogues, advertising, business solicitations, proposals, quotations, laboratory analytical reports or other materials, must be accompanied by the phrase "accredited in accordance with NELAP" and your ORELAP identification number.

If you choose to make reference to your ORELAP-NELAP accreditation in any literature such as catalogues, advertising, business solicitations, proposals, quotations, laboratory analytical reports or other materials, you must:

ASSET Laboratories
3151 W. Post Road
Las Vegas, NV 89118

- Distinguish between the parameters for which you are accredited by ORELAP and those for which you are not accredited by ORELAP.
- Include your ORELAP identification number.

If, for any reason other than expiration, the laboratory loses accreditation or withdraws from the program, the Certificate of Accreditation must be returned to ORELAP and the lab must discontinue use of all literature that contains reference to ORELAP accreditation status.

Changes in your laboratory

You must notify ORELAP of any key changes within 30 calendar days. Such changes include, but are not limited to, key personnel, equipment, or standard operating procedures. A change in address requires that you also complete and submit a new application on-line with the ODIE (ORELAP Data Input and Edit) application.

You must notify ORELAP of any change in ownership within 30 calendar days by completing and submitting a new application on-line with the ODIE (ORELAP Data Input and Edit) application. The seller and buyer must also sign the ORELAP change of ownership agreement.

No application fee will be assessed for either change in address or ownership. Charges for an on-site assessment, if deemed necessary, will be invoiced to the laboratory prior to the visit.

Participation in proficiency testing program

In order to maintain accreditation, the laboratory is required to continue to analyze proficiency testing (PT) samples according to Volume 1, Module 1 of the 2009 TNI Standards, and continue to meet the quality systems standards according to those set forth in Volume 1, Module 2 of the 2009 TNI Standards.

Please be aware that Requirements for Corrective Action in Volume 1, Module 1 requires laboratories, in the event of a failed PT, to perform corrective action as described in Volume 1, Module 2 and to maintain a copy of the records of the investigation of the cause and the corrective actions taken.

If you have any questions, please contact me at (503) 693-4122 or gary.k.ward@state.or.us.

Sincerely,

Scott Hoatson
Interim ORELAP Program Manager
